

Item for Discussion: PhDConnect

Outline your idea for discussion:

PhDConnect is a project running for the last 2 years at the Bartlett school. It is a plan too schedule PHD student led events into one calendar for PHD student to come together and meet likeminded individuals. PhDConnect offers branded spaces for networking to happen. Last year we had 150 students at the Bartlett interact with the 15 events that were put on. It would be great to learn whether other faculties have something to foster PHD student networking and uplift there experience, collaborate and offer insights into how UCL PHD students can foster enriched community experiences.
