

Policy Proposal: automatically open up the role of postgraduate officer to all clubs and societies in the term 1 by election

What would you like the Union to do?

Automatically opening up the role of PG officer in all the clubs and societies in the term 1 by-election. We strongly recommend this in order to encourage PG students to be more involved with societies and get the full student experience. We would want this to be an opt-out system, so it is not compulsory.

Why would you like to do this?

We strongly recommend this in order to encourage PG students to be more involved with societies and get the full student experience. We think this would be helpful because it would encourage more postgraduate students to join clubs and societies and clubs and societies would not stop during exam season when UG students are busy with exams.

How will this affect students?

PG students will be more likely to join the societies and the societies will be running in Term 3, when PG students are most available to run events/activities but UG students are busy with exams/assignments.
