

Policy Proposal: Mature & Part-time Students' Officer should be a member of the Activities Zone, Education Zone and Union Executive

What would you like the Union to do?

I would like to propose that the Mature & Part-time Students' Officer should be a member of the Activities Zone, Education Zone and Union Executive.

Why would you like to do this?

Mature and part-time students are one of the, if not the most underrepresented demographic at UCL. We (mature and part-time students) have stakes in both the educational and social aspect of UCL yet our needs and wishes are not considered by the 'zones' (committees) responsible for these things. We finally have an officer but what good is that if they are not able to attend the zones that are most relevant to us.

How will this affect students?

As well as giving give mature and part-time students (via their elected officer) some much needed representation, it would also hopefully mean our specific needs would be better understood by the wider SU.

Has your policy proposal considered the following:

Is it affordable? Is it sustainable? Is your idea new and unique?
