

**Policy Proposal: No Detriment Policy**

To be discussed at: Union Executive

**What would you like the Union to do?**

To lobby UCL to implement mitigations for the examination period 2020-21. This could be in the form of a safety net, a blanket 'no detriment policy', or other suitable mitigations.

**Why would you like to do this?**

The learning environment this academic year has been subpar and is not conducive to fulfilling learning objectives. Therefore UCL students require mitigations.

**How will this affect students?**

This will make up for the learning environment this year and will reduce the overall impact of the pandemic on students experiences at UCL. Additionally, it will work to alleviate student anxieties and concerns about their performance this academic year.
