

# Andy Weinzierl

Hi, my name is Andy and I'm running for the position as a representative for the Mathematical and Physical Sciences faculty!

## About me

MSc Technology Management

24 years old

Munich, Germany

Founded two (still tiny) startups: [drais.bike](https://www.drais.bike) & [SponsorMio.com](https://www.sponsormio.com)

Worked for large corporates (i.e. BMW, Porsche, Fraunhofer, Allianz)

Studied Logistics Engineering Management (B.Eng.) in Munich

## My plans

I want to combine the Faculty of Mathematical and Physical Science with a spirit of **entrepreneurship**. Events or competitions on business ideas with a thematic reference would be an exciting thing to do.

Otherwise my election program is intentionally empty. This is not about me, rather about **all the students** of this faculty. If you elect me as your representative, I will read your wishes and we will agree on the agenda **together**.
