

IRIS BREWARD

FOR NUS DELEGATE

FREE EDUCATION FOR ALL!

The government continue to cut maintenance grants and raise tuition fees, turning higher education into a privilege that few can afford. We cannot let this happen. I will stand against fees and cuts and push the NUS to oppose the increasing costs of education.

DEFEND STUDENT WELFARE!

There is a mental health crisis at UCL. Services are oversubscribed and underfunded, as the university continues to prioritise profit over student needs. We need an end to waiting lists and adequate services for all. We also need to defend women against sexual harassment and ensure they are safe on campus. I will take these concerns to NUS and lobby for more funding for mental health services and better support for survivors.

OPPOSE THE HOSTILE ENVIRONMENT!

Migrants and international students face increasing precarity and institutional racism within higher education. We need to defend the rights of those who moved here to study and oppose the logic of borders. NUS must target these problems and work to combat racist policies like Prevent.

ABOUT ME:

I'm a left wing candidate and intersectional feminist involved with Cut the Rent and Justice for University of London Workers. I'm committed to representing your needs at conference and I want to push to transform the NUS into an active vehicle for radical change.
